REMARKS

The Applicants respectfully submit this preliminary amendment for entry into the above referenced patent application before substantive examination. The preliminary amendment amends claims 1, 16, and 17, adds new claims 21-32, and corrects minor mistakes in the specification.

As required by 35 U.S.C. Sect. 132, no new matter has been added. New claims 21-32 are fully supported by the application. The Applicants rectify obvious mistakes (e.g. tri-color LEDs are red, green, and "blue" in contrast to red, green, and "yellow"; bi-color LEDs – not tri-color LEDs – have only two color-control leads).

Applicants respectfully request entry of this preliminary amendment and consideration of the application as amended. The application as amended will therefore include claims 1-32 for substantive examination.

Thank you. Please feel free to contact the undersigned if there are any questions or concerns regarding this submission.

Respectfully submitted,
